SMUMMARY

I'm currently an IT student at Government Polytechnic, Kolhapur working toward my Diploma in Information Technology. I am proficient in programming languages like C, C++, Python, and Core Java. I'm also good with databases like MySQL and MongoDB. My projects have given me real experience in making software and managing databases. I'm looking for a 3-month internship where I can use these skills.

TECH STACK

- | | | | |
